Release

Final resolution anti-dumping investigation against the Republic of India

October 18, 2016

Compañía Minera Autlán, S.A.B. of C.V. (Autlán) reports that today the Ministry of Economy published in the Official Journal of the Federation the final resolution of the anti-dumping investigation on imports of ferrosilicomanganese (SiMn) originating in the Republic of India, determining a final compensatory quota of 40.25 % to all imports of SiMn of Indian origin regardless of the country of origin.

This decision ends the anti-dumping investigation initiated on September 7, 2015 in response to the request filed by Autlán on June 1, 2015. The Ministry of the Economy determined that there are sufficient elements to indicate that during the period under investigation imports of SiMn from of India were made under conditions of price discrimination and caused threat of damage to the performance of the Mexican industry.

Autlán is a Mexican company with worldwide recognition for the quality and specialization of its products, which provides the steel industry with dry batteries, ceramics, micronutrients and / or fertilizers. The backward integration of key inputs, our operational strength, a growing market, proven reserves for the next 40 years and qualified and committed personnel support the strength of the company.
