

1Q17 Results Guide

April 3, 2017

Compañía Minera Autlán, S.A.B. de C.V. (Autlán) presents its results guide for the first quarter of 2017.

During this period, in addition to the efforts to continue reducing costs and increasing operating efficiencies, the international prices of manganese ferroalloys continued the recovery observed since the end of 2016. Consequently, the results of the company in the mentioned quarter are expected to reflect these improvements.

In comparison with the same quarter of 2016, it is estimated that net sales will increase by at least 50% and the generation of EBITDA will be higher by at least 3 times.

Additionally, during the month of March Autlán strengthened its financial position by refinancing its debt, improving its profile in terms of cost and term.

Autlán is a Mexican company with worldwide recognition for the quality and specialization of its products, which provides the steel industry with dry batteries, ceramics, micronutrients and / or fertilizers. The backward integration of key inputs, our operational strength, a growing market, proven reserves for the next 40 years and qualified and committed personnel support the strength of the company.
