

Autlán improves debt profile

February 14, 2020

Compañía Minera Autlán, S.A.B. de C.V. (Autlán) informs the investing public that an amortizing unsecured loan for \$16.0 million dollars with a seven-year tenor was contracted with Banco del Bajío. The resources were used to refinance the debt that was held with the same bank, as well as to support working capital for future investments.

As part of Autlán's strategy, this refinancing follows the objective of maintaining a strong capital structure, improving debt conditions, and extending its duration through longer maturities. The Company keeps working on obtaining similar conditions in their bank and market liabilities.

Autlán is a Mexican company with worldwide recognition for the quality and specialization of its products, strategic supplier of minerals and manganese ferroalloys. We generate value for our shareholders, staff and clients using the experience, the best available technology and future development projects as part of the values and growth of the company.
